### EASTERN STATES.

Conflicting Reports from the North Carolina Election

New York, August 2.—The Tribune's Raleigh [illegible] says that the Democrats have carried the State by a majority of [illegible] on Joint Ballot. The Legislature will stand [illegible] Democrats in the Senate and [illegible] in the House. The Democrats have made large gains in the western counties and elect [illegible] Congress. Rainey, Republican, is probably [illegible] Congress and Dockery, Democrat, [illegible] Fourth District. Lynch, Abbott, Cowan and Richmond, Democrats, are elected [illegible] Congress. The contest in the Fourth District is very close. The chances are equal for Settle (Republican) and Bragg (Democrat).

New York, August 2.—The supporters of Greeley from the North Carolina election has started. Crowds are gathered around the bulletin boards of the City Hall and headquarters of the different political committees.

Schenck, Republican candidate for Congress of Hanover county, N. C., who was here, reports the reception [illegible] dispatch informing him of his election by [illegible] majority. Last night's dispatches conceded [illegible] county to the Democrats.

William Moore telegraphs to Col. Ames at the Liberal headquarters, that Merriman is elected by six thousand majority. Secretary Robeson telegraphs to the Republican headquarters that the Republicans carry the State by a small majority.

The Herald's Raleigh special says that they take the election to give the result in North Carolina. Democrats there claim a majority of 25,000 or [illegible].

The Post, a Republican organ, concedes that Merriman is elected by a small majority.

A Raleigh special says Merriman claims his majority will be 6,000.

The Tribune is unwilling to give the State to the Democrats, and thinks it may take the official count to decide the vote.

The Herald says over the victory, claiming the [illegible] majority for the Democrats, and the Third, Fifth, Sixth, Seventh and Eighth Congressional Districts.

The Chairman of the Cincinnati Convention Pronounces for Grant.

Cincinnati, August 2.—Judge Stanley Matthews, who was very free in his denunciations of the Cincinnati Convention, has published a letter declaring in favor of the Republican nominees, and says he intends to support Grant and Wilson.

A Sharp Letter to Sumner.

Washington, August 2.—A letter from Hon. James G. Blaine to Senator Sumner, in reference to the recent letter of the Senator to the colored citizens, is published to-day. The letter is dated Augusta, Maine, July 31st. It opens as follows: Your letter published in papers of this city will create profound pain and regret among your former political friends throughout New England. Your power to injure General Grant was exhausted in your remarkable speech in the Senate; your power to injure yourself was not fully exercised until you announced open alliance with the Southern secessionists in their efforts to destroy the Republican party. The writer repeats his argument that Greeley would be powerless to enforce any policy against the will of Congress, and concludes by asserting Sumner that the colored men will not follow either him or Greeley in their support of the Democratic party. They will not forget his (Sumner's) services to them in the past, nor will they forget how heated and blinded by hatred of one man, he turned his back upon them.

The Colored People Unshaken.

Indianapolis, August 2.—A large meeting of colored citizens here to-night adopted resolutions condemning the advice of Sumner to them, to leave the Republican party and ally themselves with the Democrats, expressing their determination to do all in their power to elect Grant and Wilson.

Detroit, August 2.—Colored voters held a large and enthusiastic meeting, which was addressed at considerable length by Rev. [illegible] Wilkins, a pupil and intimate friend of Sumner. He counselled his hearers to disregard Sumner's advice to vote for Greeley. Resolutions were unanimously adopted, pledging unswerving fidelity to the party which made colored men free, adhering to their faith in Grant, and their determination to stand by him in the campaign.

Greeley Loses Strong Allies.

New York, Aug. 3.—Apollo Hall Democrats will take no [illegible] if any active part in the Presidential campaign, but will devote themselves wholly to city, county and state affairs.

Ku-Klux in Missouri.

St. Louis, Aug. 3.—Government officials received information yesterday that Colonel Wilkinson Lawson and Thomas Lawson, his son, were driven from their home, in Carter county, by masked Ku Klux. Thomas was whipped. Both gentlemen are now in town. They lodged information before United States Commissioner Stewart, who issued warrants for the arrest of the perpetrators of the outrage. Lawson states that several other cases similar in character occurred in Carter county, but the parties upon whom the outrages were committed are afraid to say anything for fear they will not be protected.

### BY ATLANTIC CABLE.

Doubts Concerning Stanley.

Paris, Aug. 2.—The Temps is inclined to doubt the authenticity of the Livingstone letters published by Stanley. It quotes the opinion of the German geographer, Kiepert, who discovers various geographical blunders in the letters. He thinks part of the narrative was invented by Stanley—hence the whole is ridiculous. I think that it is possible that Stanley never saw Dr. Living stone.

Stanley Feted at London.

London, Aug. 2.—The Herald's London dispatch says that Stanley was invited to dine with Lord Stanley, Lady Franklin and other distinguished persons.

A Herald's London dispatch has letters received by Stanley from Viscount Enfield, for Earl Granville and a [illegible] of Livingstone. Enfield, in the name, [illegible] of Earl Granville, acknowledges the receipt of letter and documents from Livingstone, delivered by Stanley to Her Majesty's Ambassador at Paris for transmission to the Foreign Department.

Granville says in his letter that he has no doubt of the genuineness of the letters purporting to come from Livingstone.

Livingstone's son says he has no doubt that the letters and papers brought to him by Stanley are from his father.

### CALIFORNIA.

Political News.

San Francisco, August 3.—S. [illegible] Tilton, late President of the Republican State Central Committee, was elected President of the Liberal Republican State Committee to-day, and G. W. Corbett as Secretary.

The Liberal Republican and Democratic State Conventions met separately to-day. Each named three [illegible]. Then the two Conventions met and [illegible] and read the ticket, which is as follows: [illegible] T. M. Pixley, San Francisco. Dr. J. C. Shurtleff, San Francisco. F. H. Rensonann, San Francisco. Joe Hamilton, Placer. John Yule, Placer. Perry Donahue, San Mateo. The first, third and fifth were named by Republicans. The alternates are as follows: Judge A. Hogan, Santa Cruz (Dem.). A. Sherry, San Joaquin (Rep.). Juan B. Castro, Monterey (Dem.). Judge Robert McGarvey, Mendocino (Rep.). John Daggett, Humboldt (Dem.). A. J. Spencer, Santa Clara (Rep.). Spencer's son is on the Grant electoral ticket. Both Conventions had a full attendance.

Greeley's Portrait by Himself

The following letter, written not long ago by Horace Greeley to Frank Blair, would appear [illegible] Mr. Greeley himself:

NEW YORK, [illegible]

SIR: You formerly abused me more than you ever thought you belonged to the Republican party; you are now among the bitterest of its enemies. You fought against the rebels in our late civil war. You have since been the candidate for a high office on whom they staked all their hopes, and hates and efforts. You were a Union Representative in Congress throughout the four years which directly followed my utterances of 1860 and 1861; but you did not then whisper an objection to them, nor to my working for the election of your brother to fill a place in Mr. Lincoln's cabinet; but you are now again in Congress, with all rebeldom at your back, and you persistently assail me for those utterances before you are fairly warm in your seat. In this you are true to your life-long guiding star—self-interest—and again my inclination coincides with your purpose. You would like to be the next candidate of the rebels and pro-rebels for President; and I, for reasons which nowise flatter you, wish success to that aspiration: so I gratify your desire for a controversy. Nay, more, I assure your new friends that in spite of past vacillations, they may trust you so long as they shall take care not to thwart your ambition. You never thought of leaving the Republicans till you sought the Speakership at their hands and were denied it, and you will be equally true to your present confederates until they in turn shall refuse you something on which you shall have set your heart.

General, I long ago learned that principles were cheaper than, and that he who makes his own aggrandizement his aim must wear them lightly or put them aside altogether. I doubt that you would ever have attained your present dizzy elevation had you permitted yourself to be encumbered with them. But I am not fashioned and cannot change my complexion. I will wear my admired facility.

H. G.

In a Nutshell.

Here is the Virginia argument in a nut-shell against the propriety of restoring the Democratic party to power under the leadership of Greeley:

The Democratic theory of state rights is belittled into pleas of revenge for needed repression. Has the country any guaranty in the party's past compliance with Southern demands, that the ex-slaveholders will not ask the President for the four hundred millions once offered by the editor? Will the virtue of his body guard be proof against the temptation of dividing that splendid spoil, or his own gentlemanly benevolence resist their importunity? What safety for the public credit is there in the party which once talked of repudiating a repudiator, under a leader who clamors for the impossible, in instant specie-payment, as a child cries for the moon? As for those who expect practically on the edge of free trade from a passionate protectionist, or divide the motives with the fancy of civil service reform while the considerations for office are the bargaining remains to be paid, we fear experience may not come to them too late. And what are to the new questions which are forming up the attack on the increasing power of corporations, and the conflict between labor and capital? We should be sorry to trust their disposed to politicians [illegible] Democratic party [illegible] a promising new field

### The North Carolina Election

Latest dispatches seem to indicate that the result of the North Carolina election will be in doubt Nearly half the counties in the State have no direct telegraphic communication with the county for the quickest returns but they come in gradually reducing Democratic majorities in part and Republican still claiming success Whatever may be the result it is certain that the State is very close Our own opinion is that it is Democratic by a very small majority, but full returns may show the opposite result which advises from Republican sources claim

Already the Democracy have gone into ecstasies over the still uncertain report that they have carried a State which has never been claimed as sure for the Grant and Wilson column So rare indeed is it for that party to win a State that they set up a shout of wild delight on receiving a doubtful report that they have triumphed in a State which they have for two years claimed as positively their own in the ensuing Presidential election North Carolina is a State which we had little expectation of carrying The colored vote there is much weaker than in most of the other Southern States Two years ago in the last election which was a test between the parties North Carolina went Democratic by a decided majority Now, if Democratic at all it is by a majority too small to be figured on till the official returns are in Under this state of facts will any one be good enough to state what strength has been brought to the Democracy by the so-called 'Liberal Republicans'? The result in North Carolina does not show it It shows, indeed, that the Republicans have gained strength in the State since the Democrats carried it by so decisive a majority in the last general election

Having carried the State in the last election the Democrats had the county organizations, which gave them great advantage Before the recent election took place we had an account of a systematic plan on their part to obstruct voting by challenging Republicans Of course no means were left untried which could yield them any advantage, yet in spite of their best efforts they were pushed to the very verge of defeat in a State which they had counted on from the first and confidently expected to win

The result in North Carolina, showing as it does the strength of the Republican party in the South, renders it certain that a number of States in that section which have been counted for Greeley will go for Grant We submit in another article some statements and figures on this subject which the enthusiastic supporters of Greeley would do well to chew upon Had North Carolina gone Republican in this election by a good majority it would have indicated that everything North and South, was for Grant, and that Greeley could rely on but three or four States If it has gone Democratic it is by a very close vote which indicates simply that Greeley will probably receive the vote of three or four States more than could otherwise have been counted for him, or enough to make his number eight or ten in all At present our Democratic brethren are rejoicing over a dubious report that they have escaped by the skin of their teeth a defeat in a State which they claimed by a tremendous majority If Republicans more than hold their own in a State where Democrats triumphed decisively in 1870, what will be the outcome in other States which the Republicans carried by great majorities in the elections of that year? North Carolina as it stands isn't a brilliant Democratic achievement.

### An Attempt on the Colored Vote

A concerted effort is being made to shake the colored vote which supports the Republican party but so far without success All over the Union the colored voters adhere to the Republican party with unflinching fidelity, and refuse to be led into the snares laid for them by their former oppressors Sumner has joined the ranks of the old slave masters, and in a long letter to the colored people, entreats them to come over to the Democracy but his appeal is without avail Colored men are deaf to it and respond with enthusiastic meetings in which they resolve to support Grant and Wilson A dispatch which we publish to day states that no persuasion can convince the colored men of Virginia that their rights will be as safe under a Democratic Administration though headed by Greeley, as they have been under Grant Which shows that the colored man though often ignorant on many subjects is by no means a fool when he sees his rights insidiously assailed

It is easy to see why this tremendous effort is being made to break the ranks of the colored voters It is perceived that unless they can be broken a large number of States which the Democracy must carry or fail miserably will surely go Republican The census alarms the Greeley managers Studying it, they learn that a solid vote by the colored people for the Republican party means a Democratic defeat in at least six of the Southern States Besides they perceive that the ten or twelve thousand colored voters in Indiana, and the twenty five thousand in Pennsylvania going solid for the Republican nominees may do much toward bringing the Greeley Democratic coalition to grief in those States Let us apply some of the figures of the census of 1870 to the solution of the problem as to certain Southern States By that census the States named below had population white and colored as follows

| | White | Colored |
|---|---|---|
| Alabama | 521 784 | 475 510 |
| Georgia | 638 926 | 545 142 |
| Florida | 96,05 | 91 689 |
| Mississippi | 382,896 | 444 01 |
| Louisiana | 362 06 5 | 84 710 |
| South Carolina | 289 6 | 4 8 4 |
| Virginia | 1 0 689 | 52,841 |
| North Carolina | 678,4 0 | 91 5 0 |

Take the result in North Carolina as an index Allowing one vote to every five persons of the aggregate population we find that the white vote of the State would amount to 135 694 and the colored vote to 78 330 White majority, 57 364 It will be seen that the white vote of North Carolina is much larger in proportion than that of any one of the other above-named States

All accounts agree that the colored vote of the State was solidly Republican Although the white vote predominates so largely yet the Republicans have all but won the state if they have not actually done so This result teaches that in every one of the other States enumerated above a Democratic defeat is imminent if not absolute certainty A knowledge of this fact is what tumultates the Greeley faction to such powerful and concerted efforts to destroy the unity of the colored vote If the colored people of other States stand by the party that has stood by them as firmly as their brethren in North Carolina have done—and all the signs indicate that they will—Grant and Wilson will receive a majority of the electoral votes of the Southern States and their election will be triumphed even more signally than that of Grant and Colfax in 1868

### Tom Murphy's Letter

The following is a letter to which reference has been made in the press dispatches and which was alluded to in the editorial columns of the [illegible] days ago.

[illegible]

I have seen a report of a speech recently delivered by you at Ithaca I read that expression from the President of the United States you said He now revels in Long Branch in a house given him by Thomas Murphy

Now Sir this oft repeated statement is wholly false I did not give the President a house nor contribute one cent toward its purchase so and so far as I know and believe he purchased it and paid for it with his own money

As untrue as you are a gentleman you will retract this statement as publicly as you uttered it

Respectfully yours
THOMAS MURPHY

The above letter was published in several of the New York City papers and thus challenged to the proof of his unfounded assertions this Hon reviler of better men than himself was compelled to swallow his own words

We have received a copy of *Deady's Decisions* a volume containing a report of cases determined in the Circuit and District Courts of the United States for Oregon and California The volume presents in a durable and convenient shape, many decisions which have been printed from time to time in the Oregonian and a large number of others The well known ability of Judge Deady will render this volume an important acquisition to the legal profession It bears on every page the marks of his pains taking care, discriminating judgment and legal and literary ability The mechanical execution of the volume leaves nothing to be desired on that head The publishers are A L Bancroft & Co San Francisco

Senator Sherman takes a cheerful view of the situation He says "We can enter upon the canvass with Grant and Wilson, honored representatives of the Republican party, as our candidates and without any other platform than the history of our party—its early struggles, its military triumphs and more honored than all else the permanent reconstruction and reform measures that have been adopted since the close of the war This remarkable record of successful administration will answer all the petty criticism of disappointed men

At last the Liberal Republicans of Oregon have organized The organization is at Salem The strength and character of this movement will be sufficiently understood when it is stated that Stephen Coffin G W Lawson and P C Sullivan are the incorporators and principal stockholders None of these gentlemen supported the Republican ticket at the June election

P C Sullivan Esq, archon of the Liberal Club, at Salem modestly suggests his own name for the place on the electoral ticket made vacant by the withdrawal of Lane No doubt Lane is perfectly willing to see Sullivan sacrificed on that altar But it is rank injustice to the party of the name of Matlock for Sullivan to jump in in this way

The "crow eaters and "pill takers of Portland who had been looking very unhappy since Greeley's nomination are trying to be more cheerful since the North Carolina election If they can be happy over this result they need not despair of obtaining sunbeams from cucumbers

The San Francisco *Chronicle* of the 1st instant says 'The Democrats are organizing Grant Clubs in many wards Last night a large number of Democrats of the Twelfth Ward harmoniously perfected their organization of a Grant Club with Thomas O Shea for President

### Indirect Claims Again

The New York *Herald* has sent a correspondent to interview President Grant and seems to have succeeded in drawing out the views of the latter pretty freely as to the more important topics of the day One subject of conversation was the settlement of the question of the indirect claims the correspondent pleasantly asking How much of a victory has England gained in this matter and the President replying as follows

Great Britain has gained no victory at all sir The triumph has been all ours and a great and important triumph it is We have got the whole question just where we wanted it and solved as we wished it to be If we had no stronger reason for presenting those indirect claims the duty of this government to the people of this country should according to my ideas of a government's duty compel us to present them You remember the great speech of Mr Sumner delivered on this subject a short time ago I took pains as in duty bound to ascertain what effect that speech had on the minds of the American public and I found beyond all doubt or peradventure that Mr Sumner's opinion found a hearty response in the breasts and minds of the people of this country The will of the people I have accepted as my guide in this and all other matters and in response to that will alone I could have found my duty as well as my justification in the presentation of those indirect claims But there was another reason and a still stronger one than that founded on mere popular opinion and that is the future position safety and welfare of the country It is of greater importance to the United States than to any other country in the world that the rights and duties of neutrals shall be distinctly ascertained and definitely settled and settled precisely as they have just been In the event of any civil or international foreign wars particularly one in whose results the people of this country or any considerable portion of them might feel interested—we would find ourselves with almost interminable coast and boundary lines which could only be watched with the greatest difficulty and cost if they could be successfully watched at all by the available resources and forces of the government which is more than doubtful We will be the neutrals in the next war and for all the future and it might be England's turn in that declaration had not been made by the Geneva Conference to present us with a long bill for indirect damages inflicted on her commerce and power by privateers escaped from our ports without the knowledge or consent of this government We might reply Oh we didn't present any claims for indirect damages when privateers from your ports served us in a similar manner But Great Britain would undoubtedly answer Why didn't you If you the right at to neglect your own interests you must take the consequences of your foolish example That plausible principle now taken out of her own mouth and done too by her own act and deed which make the victory double Now should any of our people put her on such jeopardy and to do her such damage as the subjects of Great Britain did us and she should demand compensation we shall simply reply Prove that consideration of the available resources of this government we did not exercise all reasonable watchfulness to prevent our citizens from sending out privateers and then we shall consider your claims but not till then.

Through the *Farmer* Mr Jacobs President of the Oregon City Woolen Mills expresses the conclusion that wool taken from sheep half Merino and half Southdown is the best calculated for the use of their mills and the run of goods which they manufacture He also thinks that breeding sheep are profitable to Oregon farmers as much as any other

O H Adams & Co came very near losing their mills on Panther Creek in Yamhill county by fire last Monday and Tuesday owing, to the criminal carelessness of a hunting party who camped in the yard and [illegible] near the camp fire burning within ten feet of the stacks of lumber The lumber caught fire and so did the mill but by extraordinary efforts was saved from burning down

The Democrat's Turner says Crops before the late rains looked anything but promising At present fall wheat seldom looked better or gave a more flattering or prolific yield Oats in many places will turn out from 50 to 70 bushels per acre Almost all farmers have already begun harvesting and report the yields to be very fair The hay crop is mostly gathered and good timothy sells from $15 to $20 per ton

We are informed that when the other day Mr Meacham, candidate for Presidential Elector on the Republican ticket passed through the Dalles on his way to Umatilla he called upon Mr Gates, who is one of the Democratic candidates on the Greeley ticket, to make some arrangements about a stumping canvass of Eastern Oregon Mr Gates declined saying that he didn't want any canvass in his Mr Meacham urged that the people would expect a canvass and he would like very well to go out and talk a little but he didn't want to go alone Finally Colonel Gates closed the colloquy by saying 'Well I may conclude to speak a few times if I do I'll abuse Grant like h—l but I'll be d—d if I'll say a word in favor of Greeley —*Oregon Statesman*

### Greeley's Pal

We some time since alluded to the fact that George N Saunders—one of the most active of the infamous plotters in the interest of the Southern Confederacy who was detected in a scheme to burn Northern cities and who was obliged to take refuge in Canada—had returned to this country since the amnesty law was passed, for the purpose of aiding the election of his old friend Horace Greeley It did not need the following the exact truth of which is vouched for by the Albany *Evening Journal* to prove that Saunders is already deep in Greeley's secrets

On Sunday morning last much to the surprise and indignation of the congregation Horace Greeley accompanied by George N Saunders and Theodore Tilton walked into Rev Dr Chapin's church taking seats in Mr Greeley's pew It was soon known that the notorious traitor who was hatching, conspiracies in Canada during the whole of the rebellion was Mr Greeley's guest and an expression of disgust was manifest in almost every countenance for in our whole city there is not a congregation more distinguished for its intelligence and loyalty than this one Nor did the circumstances fail to attract the attention and the rebuke of the eminent and eloquent pastor who's patriotic heart must have burned with indignation to see a man who had conspired to burn our city and assassinate our President thus openly and shamelessly patronized by a prominent member of his congregation

### One by One they Fall Away

In a New York paper we find the following under date of July 2d from Hon S F Streeter addressed to Hon Thomas J Stewart Chairman of the Liberal Republican Central Committee of New York

Dear Sir The singular course political events have taken during the past few months has occasioned not a little perplexity in the minds of honest and patriotic men Not to the principles they should forget in the present campaign but simply as to the step they should take in order best to secure the triumph of the principles they have long professed and cherished From first to last I have acted with the Republican party I believed its principles to be rooted in justice and friendly to liberty Their success has been the salvation of the nation Dissolution has occurred in the ranks of the party in this city I chose to act in my district with what was known as the Greeley faction believing that I could there best serve the party the State and right But recent events have forced upon me the conviction that the line of duty no longer lies with that faction The contest is no longer between factions of the Republican party but between the Democratic and Republican parties pure and simple In that contest I propose to battle with the Republican party I therefore herewith tender my resignation as a member of the Liberal Central Committee from the Seventh Assembly District

Very respectfully yours
[illegible]

### Tammany Responds

Of course Tammany responds to the action of the Baltimore Convention It knows its man And it is not remarkable that it should endorse him As the Philadelphia *North American* says Mr Greeley's chaffering with this infamous Ring has long been notorious He played his part in all their campaigns regularly as the time came round This was to distract the Republican party in

SUNDAY MORNING, AUGUST 16

## CITY.

PRESSED LUMBER.—Twenty two thousand pressed boards were brought to this city by the steamer Dow These boards are the first pressed lumber manufactured in the State and came from the works of Messrs Gray & Co about twelve miles above Salem on the river In several essential respects the pressed boards are superior to the ordinary matched one and the processes through which the pressed boards pass are more tedious or expensive The clay is first thoroughly worked in the mill and then ground From the hopper the clay passed down into a chamber placed directly below An aperture is made at one side of the chamber through which the mortar is forced at every revolution of the mill by a piece of timber which passes into the chamber at another aperture The clay then passes out on a platform between four cast iron rollers which presses it to a proper thickness The bricks are then cut out by fine wire—ten at a time—and conveyed away and set up in regular rows When the bricks have attained a certain hardness they are put through the pressing machine one at a time Each one is subjected to a heavy pressure equally on all sides by being placed in an iron box The air is thus all pressed out of the brick the body of which is made solid and the sides and ends are pressed as smooth as a planed board They are then taken from the pressing machine and burned hard like the ordinary brick The pressure to which they are subjected renders them more perfect as to size than if moulded the corners are more even, and such bricks can more successfully resist the wear and tear of the elements Two active men can press about 2 000 bricks per day The rollers between which the mortar passes are so gauged that the clay is made five-eighths one way and three eighths the other way larger than moulded brick and the pressure reduces them to the proper dimensions These bricks were brought to Smith & Stephens and will be used in building the front of their large and magnificent brick block now in process of construction

WHEAT PROSPECTS.—A correspondent who resides in Washington county writes as follows in regard to the wheat prospects "Owing to the low price offered for wheat and the absence of commissioned persons to purchase grain along the west-side, together with the exorbitant price of twenty cents each for grain sacks there will not be any large quantities of grain shipped from Washington county this year All who possibly can will house their grain at home Of course there are some who will have to sell at whatever they can get, but this is not the case with the heavy grain growers Last year prices ruled good, and with commendable foresight the farmers took advantage of the times to stock their farms with all necessary implements and machinery, and to make arrangements for the bad market that is sure to follow a good one We learn from farmers in from the country that private offers have been made all over the North Plains by Comstock & Co., of Springville which have completely turned the tide of grain in that direction Of course shipments by wagon will be larger this year than last, as those who have to sell will be compelled to save it all in order to keep soul and body together At the present time it looks doubtful, but it is the judgment of some of the shrewdest farmers that there is a little game up somewhere and that wheat will yet reach eighty or eighty five cents per bushel"

NOTED VAGRANT.—Jefferson, whom this public will recollect as a most notorious "rag" and petty thief was arrested yesterday by the police and lodged in jail This fellow for numerous offences against the peace of the city last winter was employed for several months, at intervals in scraping the streets and sidewalks No sooner had he served out one sentence than he would commit some petty crime and again fall into the clutches of the police He was in a fair way to render himself so obnoxious to the community and to attain that degree of notoriety which was once the proud distinction of the celebrate Gaul, who was the pest of the city for nearly two years, when the natural consequences following one of his little fight fingered transactions required his temporary absence from the city. About fifteen days ago Jefferson stole a silk dress from a courtezan on Second street and sold it to a second hand dealer The police summoned to trace the matter out, and J Jefferson found it convenient to ruralize for a few weeks. Having apparently forgotten all about the affair, he came to the city yesterday and within an hour was in the jail, where he now is. He will be tried this morning. About such utterly worthless vagabonds there is always this to "be" They are too hopeless by half raved to tell—, and too sharp to steal a sufficient — at to send them to making brick for the State.

NEPTUNE BEATEN.—Readers will doubtless remember the row boat *Neptune* which some time last season indulged in a trial of speed with the *Webfoot* down the river The craft was owned by Mr John Coyle Before the *Neptune* was taken to San Francisco the Neptune Rowing Club of this city offered $250 for the boat, but was refused by Coyle, who asked $464 On the 4th of July the *Neptune*, manned by the Pioneer Club, entered the list for a trial of speed at Sacramento, and was badly beaten The other competitors were the *Bessie*, manned by the Stockton Club, the *Challenge*, manned by the Capital Club, and the *Alpha*, manned by the Undine Club Much dissatisfaction was felt and expressed by the crew of the *Neptune* at the result, It was claimed by that Club that foul means were employed, and they asked for another trial, but it was refused by the judges, who also declined to alter their decision.

GAME CLUB.—An adjourned meeting of the members of the Sportsman's Game Club was held Saturday evening at the Police Court room. The committee to whom was referred the drafting of the constitution and by laws reported. The constitution was then taken up, read and adopted by sections A permanent organization was effected with the exception of the election of permanent officers Owing to the lateness of the hour this was postponed until the next meeting, which will be held at the same place next Saturday evening. The indications thus far for the prosperity and success of this organization are encouraging The membership promises to be large, and all appear to take an active interest in the welfare of the club

LAUNCHED.—The hull of the little stern wheel steamer belonging to Mr. Thos Lewis was launched from the ways above Smith's Mill on last Saturday A number of persons were present to witness the launch The little craft glided gracefully down the plane, and "took the water" as handsomely as a duck She has been christened the *Marie Watkins* The hull draws only about 14 inches of water of its own weight, and will draw about 18 inches after the machinery and boiler has been placed in Both of these have just been completed at the Oregon Iron Works and will be taken on board the hull to day It is confidently expected to have the *Marie Watkins* in complete running trim by the first of next month

FOR PORTLAND.—The steamer *Ajax* sailed from San Francisco for this port on Saturday, having on board the following passengers W H Pratt, wife and child Rev Dr Sargent, J Frischman, Mrs S E Taylor, John F Gray J W Spencer J L Bendy, Mrs A E Kirnan, B Selling, W B Gilbert, James Nevill and family, Mrs B Gallagher, Miss J Chester, Miss M A Hill Miss M Evarts, Rev Bishop McIlvaye, W H Lother L E Harris and wife, W F Highfield, M Sheldan, Charles L Ladd S Perrin, C F Bing, Miss L Sabert, Miss L Hastings, W F Bemis

ROWING CLUB.—The Neptune Rowing Club of this city, has recently written to parties in San Francisco to ascertain the exact cost of constructing a rowing boat there and sending it to Portland The object of the Club is to attain all the proficiency possible in the rowing art so as to be able to accept or send a challenge to any Club on the coast We have as much muscle pluck and nerve here as elsewhere, and allour Club requires is that which makes any organization perfect — practice and experience

VERY FAINT.—One of the most feeble efforts to create enthusiasm which has been witnessed for a long time was made on Saturday night by a few Democrats and so called Liberals (which by the way is only another name for chronic sore heads and ticket splitters), in front of the Cosmopolitan hotel The demonstration was over the supposed victory in North Carolina A few sky rockets were sent careering through the air, and several bunches of Chinese bombs and fire crackers were exploded

BARK MANILLA.—It is probable that this bark will arrive here to-day, from down the river No contagious disease has been discovered among any of the passengers by the Health Officer The *Manilla* as one of the largest vessels which has touched at this port. She is drawing over 18 feet 4 by the name indicates, she is a Spanish vessel and all her crew belong to the nation, by—not

[illegible] aboard being able to speak the language

BRICK.—The brick floor of Capt Ankeny's new mill has been laid Between each brick has been laid sand until the whole floor is perfectly solid this will be poured asphaltum The floor building having its foundation solidly laid on ground, and the bed with asphaltum will, all respects as firm as stone and almost as cool, as it will not be exposed to the sun and and the consequent contraction and expansion

SHIP HOUSE.—We regret to state that the ship house Mr Walter Moffett who was brought out carriage on Friday evening are more severe than at first supposed He has been closely confined to his house since the accident and is now unable to move or turn over without great pain His legs appear to be of an internal character and the reasons are regarded with more apprehension if external

A FARM.—The *Herald* is informed that R Thompson, Esq of this city has purchased a farm of W L Adams, in Yamhill county the farm comprises a thousand acres of the land in Oregon, and is located about seven west of Lafayette adjoining a spur of the range mountains, and is said to be one of the finest localities in the State The price was $25,000

WHITE BRIDGE.—The stock books of the White Bridge Company are now open for subscription The soliciting of stock for the location of a bridge was commenced on saturday As we stand it no bonus will be required of the city for its location at any given point but the citizens of the city which subscribes most liberally the stock, will probably secure the location the bridge

G street.—This street will be completed and ready for travel during the coming week across the Couches It has been over a year since the embankment has been commenced across the lake and the contractor, Mr Baker, is gratified that the job near completion The public will be greatly accommodated by the communication thus opened street from North Front to North Second

CANAL.—Work on the canal which is to connect the Clackamas river with Oswego Lake is progressing courageously A number of men are employed the company, and the excavation for the ditch is being prosecuted with all possible vigor Ground throughout the entire distance has been broken. The superintendent is confident that boats will be passing by the 1st of October next

NESMOL HOUSE.—The excavation for the new house to be erected west of the custom house will be completed in about ten days The brick for the basement has already been commenced Without a single exception, the excavation the basement is the largest which has yet been for any building in the city, being 140 by 80 feet deep.

FOR LIGHTHOUSE.—The little schooner *Hula Bee* now completed her cargo and will sail in her two. She has on board 20,000 brick for the Lighthouse at Cape Foulweather Capt Ackerberg her cargo at that point she will go to Tillamook and receive freight for this.

POLICE COURT.—Up to 12 o'clock last night 17 arrests been made by the police Of this number were charged with offences committed against city, and 2 against the State Seven are in the jail, and 10 are out on bail Lively time be calculated on in the Police Court this morning.

CATTLE.—About twenty head of beef cattle, in excellent condition, were driven into the city yesterday some point up the valley. These butchers supply the city markets. Epicurean congratulate themselves that the reign of blue is over, at least for a brief season.

ROBBERY.—A man named Lee preferred complaint yesterday at a Chinaman charging him with having one hundred dollars from his pocket Saturday morning. The Celestial was arrested, and their will be examined this morning before Justice

INJURED.—John Conway, the man whose arm was amputated on last Friday evening, is reported as doing very well. Considering the character the injuries, and the state of the weather the wound limb is healing quite rapidly.

TO ALCATRAZ.—Four soldiers stationed at Vancouver have been sentenced to various terms of imprisonment in Fort Alcatraz by the late General court held at Vancouver They were to take up their future residence on the last steamer.

WILL BE SENTENCED.—Gilfoy, for the killing of Wall will be sentenced to the Penitentiary this morning by Judge Upton. He was indicted and tried for murder in the first degree, but was found guilty of murder in the second degree

OPEN AIR MEETING.—An open air meeting was held yesterday evening at the corner of Stark and First streets at Ladd's bank, at 5 30 o'clock, under the auspices of the members of the Young Men's Christian Association

POSTPONED.—Rev. Dr Schwab desires us to state that the proposed sale of his books by Schloss & Son, announced last Saturday in the *Gregon Deutsche Zeitung*, will not take place

CIVIL CASES.—The Circuit Court which will convene this morning will take up the civil docket No criminal cases will be tried until the civil docket has been cleared

PAID OFF.—Thirty five of the workmen employed on the custom house and post office building were laid off on Saturday by Postmaster Wakefield.

### BOARD OF DELEGATES

The Board of Delegates of the Portland Fire Department met in the Police Court room Saturday evening

Minutes read and approved

The credentials of W H Weed, elected as delegate from No 2, vice Lamar, resigned were read and filed

The Committee reported in favor of granting exemption certificates to R Hansen of Company No 4, and to A G Gray, of the same company

The same committee reported against the application of W H Pierce for an exempt certificate. Laid over for one week

The Secretary's monthly report was read and referred to Finance Committee

The bill of A. G Way, for $6 was ordered paid

The resignation of Chas W Lamar as a member of the Board of Delegates was accepted

On motion, Messrs Holman, Arnold and Read were appointed a committee to choose a suitable design for a badge to be worn by the Department while on duty The Chief Engineer was requested to act with the committee

Messrs Holman, Thomas and Moffett were appointed a committee to report a suitable design and the cost of a lithographic stone thereof for an exempt certificate

Mr Weed was appointed on the Committee of Finance to fill a vacancy

The Board then adjourned

### AMUSEMENT

THE PARK.—The attendance yesterday at the East Portland Park was quite flattering for the opening of this place of amusement About 600 ladies and gentlemen were present The acrobatic and gymnastic feats by Edwa Montgue were very excellent, and won much applause The feats of Mlle Eugenia Izaretta were of first class, and stamp her as an artiste beyond Dancing was indulged in between the different exercises in which many participated The dance was discontinued by the East Portland Band Everything passed off quietly and in good order A number of swing spring boards etc. were places for various amusements and games have been constructed Altogether it is a very pleasant place to pass a few hours in recreation and innocent pleasure

What We Need when Debilitated.
Appetite and digestion Rest and sound sleep At the very time when the body most needs renovation and support The stomach becomes easily deranged and irritable and is apt to prove delinquent Under such circumstances these ingredients for such disorders as malaria fever and ague kidney affections and urinary troubles are self evident and are the best and surest remedy known to the profession Hostetter's Stomach Bitters is more than a specific for dyspepsia It is a thorough and genial invigorant and alterative of the highest order and is unsurpassed as a remedy for biliousness, constipation nervousness and the consequential damages they inflict

The human intellect unless hopelessly diseased or egregiously humbugged declines to entertain the wish and human stomach with its cathartics that come like an avalanche through the intestines they tear like the inner membrane with them The unwary patient catch phrase the knock down and drag out remedies of treatment are played out

It is clearly understood that a mercurialized substance is especial to the renovation I am exhausted than ever and that you cannot strengthen muscle or woman by drenching with prostrating poisons Hostetter's Stomach Bitters as the best vegetable stomachic and tonic in common sense and common sense appeals to all Hostetter's Bitters as the best vegetable stomachic and tonic in existence and purifies the blood in which all poison in the form breathe or humor works

SUNDAY MORNING, AUGUST 18

## CITY.

Personal Items—Twenty two thousand pressed bricks were brought to this city yesterday from Salem. These are the first pressed brick manufactured in the State and came from the yard of Messrs Gray & Co about twelve miles down the river. In several essential respects the process of making these bricks is not more tedious or expensive than the process of making the ordinary unpressed one, and the process through which the pressed bricks pass is first to mix in the mill and thoroughly mixed and ground. From the hopper it is passed down into a chamber placed directly below. An aperture is made at one side of the chamber through which the mortar is forced at every revolution of the mill by a piece of timber which passes into the chamber at an oblique angle. The clay then passes out on a platform between four cast iron rollers which press it to a proper thickness. The bricks are then cut on by fine wires—one at a time—and conveyed away and set up in regular rows. When the bricks have attained a certain hardness, they are put through the pressing machine one at a time. Each one is subjected to a heavy pressure equally on a side by being placed in an iron box. The ends are thus all pressed out of the brick. The body of it is made solid, and the sides and ends are pressed as smooth as a planed board. They are then taken from the pressing machine and burned hard like the ordinary brick. The pressure to which they are subjected renders them more perfect as to size than if moulded, the corners are more even, and such bricks can more successfully resist the wear and tear of the elements. Two active men can press 2,000 bricks per day. The rollers between which the mortar passes are so gauged that the clay is made five-eighths one way and three eighths the other way, larger than moulded brick and the pressure reduces them to the proper dimensions. These bricks were brought to Smith & Stephens and will be used in building the front of their large and magnificent brick block, now in process of construction.

Wheat Prospects—A correspondent who resides in Washington county writes as follows in regard to the wheat prospects: "Owing to the low price offered for wheat, and the absence of commissioned persons to purchase grain along the west-side, together with the exorbitant price of twenty cents each for grain sacks, there will not be any large quantities of grain shipped from Washington county this year. All who possibly can will house their grain at home. Of course there are some who will have to sell at whatever they can get, but this is not the case with the heavy grain growers. Last year prices ruled good, and with commendable foresight the farmers took advantage of the times to stock their farms with all necessary implements and machinery, and to make arrangements for the best market that is sure to follow a good one. We learn from farmers in from the country that private offers have been made all over the North Plains by Comstock & Co., of Springville which have completely turned the tide of grain in that direction. Of course shipments by wagon will be larger this year than last, as those who have to sell will be compelled to save it all in order to keep soul and body together. At the present time it looks doubtful, but it is the judgment of some of the shrewdest farmers that there is a little game up somewhere and that wheat will yet reach eighty or eighty five cents per bushel."

Noted Vagrant—Jefferson, whom this public will recollect as a most notorious "rag" and petty thief was arrested yesterday by the police and lodged in jail. This fellow for numerous offences against the peace of the city last winter was employed for several months, at intervals, in scraping the streets and sidewalks. No sooner had he served out one sentence than he would commit some petty crime and again fall into the clutches of the police. He was in a fair way to render himself so obnoxious to the community and to attain that degree of notoriety which was once the proud distinction of the celebrate Gaul, who was the pest of the city for nearly two years, when the natural consequences following one of his little light fingered transactions required his temporary absence from the city. About fifteen days ago Jefferson stole a silk dress from a courtezan on Second street and sold it to a second-hand dealer. The police commenced to trace the matter out, and Jefferson found it convenient to vacate for a few weeks. Having apparently forgotten all about the affair, he came to the city yesterday and within an hour was in the jail, where he now is. He will be tried this morning. About such utterly worthless vagabonds there is always this trouble. They are too hopelessly depraved to reform, and too sharp to steal a sufficient amount to send them to making brick for the State.

Neptune Beaten.—Readers will doubtless remember the row boat *Neptune* which some time last season indulged in a trial of speed with the *Webfoot* down the river. The craft was owned by Mr. John Coyle. Before the *Neptune* was taken to San Francisco the Neptune Rowing Club of this city offered $250 for the boat, but was refused by Coyle, who asked $464. On the 4th of July the *Neptune*, manned by the Pioneer Club, entered the list for a trial of speed at Sacramento, and was badly beaten. The other competitors were the *Bessie*, manned by the Stockton Club, the *Challenge*, manned by the Capital Club, and the *Alpha*, manned by the Undine Club. Much dissatisfaction was felt and expressed by the crew of the *Neptune* at the result. It was claimed by that Club that foul means were employed, and they asked for another trial, but it was refused by the judges, who also declined to alter their decision.

Game Club—An adjourned meeting of the members of the Sportsman's Game Club was held Saturday evening at the Police Court-room. The committee to whom was referred the drafting of the constitution and by laws reported. The constitution was then taken up, read and adopted by sections. A permanent organization was effected with the exception of the election of permanent officers. Owing to the late hour of the hour this was postponed until the next meeting, which will be held at the same place next Saturday evening. The indications thus far for the prosperity and success of this organization are encouraging. The membership promises to be large, and all appear to take an active interest in the welfare of the club.

Launched—The hull of the little stern wheel steamer belonging to Mr. Thos Lewis, was launched from the ways above Smith's Mill on last Saturday. A number of persons were present to witness the launch. The little craft glided gracefully down the plane, and "took the water" as handsomely as a duck. She has been christened the *Marie Watkins*. The hull draws only about 14 inches of water of its own weight, and will draw about 18 inches after the machinery and boiler has been placed in. Both of these have just been completed at the Oregon Iron Works and will be taken on board the hull to day. It is confidently expected to have the *Marie Watkins* in complete running trim by the first of next month.

For Portland—The steamer *Ajax* sailed from San Francisco for this port on Saturday, having on board the following passengers: W H Pratt, wife and child; Rev Dr Sargent; J Frischman, Mrs S E Taylor, John S Gray, J W Spencer, J L Bendy, Mrs A E Kirnen, B Selling, W B Gilbert, James Nevill and family, Mrs B Gallagher, Miss J Chester, Miss M A Hill, Miss M Evarts, Rev Bishop McIlvyre, W H Lother, L E Harris and wife, W F Highfield, M Sheiden, Charles E Ladd, S Purvis, C F Blug, Miss L Sisbert, Miss L Hastings, W F Bemis.

Rowing Club—The Neptune Rowing Club of this city, has recently written to parties in San Francisco to ascertain the exact cost of constructing a rowing boat there and sending it to Portland. The object of the Club is to attain all the proficiency possible in the rowing art, so as to be able to accept or send a challenge to any Club on the coast. We have as much muscle, pluck and nerve here as elsewhere, and all our Club requires is that which makes any organization perfect—practice and experience.

Very Faint—One of the most feeble efforts to create enthusiasm which has been witnessed for a long time was made on Saturday night by a few Democrats and so called Liberals (which by the way is only another name for chronic sore heads and ticket splitters), in front of the Cosmopolitan hotel. The demonstration was over the supposed victory in North Carolina. A few sky rockets were sent careering through the air, and several bunches of Chinese bombs and fire cracker were exploded.

Bark Manilla—It is probable that this bark will arrive here to-day, from down the river. No contagious disease has been discovered among any of the passengers by the Health Officer. The *Manilla* is one of the largest vessels which has touched at this port. She is drawing only 15 feet. As the name indicates she is a Spanish vessel and all her crew belong to that nationality—not one aboard being able to speak the English language.

The brick floor of Capt Ankeny's new mansion is being laid. Between each brick has been sand until the whole floor is perfectly solid, over this will be poured asphaltum. The floor building having its foundation on solidly laid ground, and the shed with asphaltum will all respects as firm as stone and almost as cool, as it will not be exposed to the sun and the consequent contraction and expansion.

Sad Hunt—We regret to state that the injury Mr Walter Moffett who was thrown out of a carriage on Friday evening are more serious than at first supposed. He has been confined to his bed since the accident and is now unable to move or turn over without great pain. It is feared to be of an internal character and at present are regarded with more apprehension than if external.

A Farm—The *Herald* is informed that R Thompson, Esq of this city, has purchased a farm of W L Adams in Yamhill county. The farm comprises a thousand acres of the finest land in Oregon, and is located about seven miles west of Lafayette adjoining a spur of the coast range mountains, and is said to be one of the finest localities in the State. The price was $25 000.

Waste Bridge—The stock books of the Willamette Bridge Company are now open for subscription. The soliciting of stock for the location of the bridge was commenced on Saturday. As it now stand it, no bonus will be required of the company for its location at any given point but the action of the city which subscribes most liberally for the stock, will probably secure the location of the bridge.

Grading—This street will be completed and ready for travel during the coming week across Couche. It has been over a year since the embankment has been commenced across the lake and the contractor, Mr Baker is gratified that the job is near completion. The public will be greatly accommodated by the communication thus opened of street from North Front to North Second.

Canal Work on the canal which is to connect the Willamette river with Oswego Lake is progressing encouragingly. A number of men are employed by the company and the excavation for the channel being prosecuted with all possible vigor. Ground throughout the entire distance has been broken. The superintendent is confident that he will be passing by the 1st of October next.

New Light House—The excavation for the new lighthouse to be erected west of the custom house is well be completed in about ten days. The brick for the basement has already been commenced. Without a single exception, the excavation for the basement is the largest which has yet been made for any building in the city, being 140 by 80 feet, and 9 feet deep.

For Lighthouse—The little schooner *Mila Ban* now completed her cargo and will sail in one or two. She has on board 20,000 brick for new lighthouse at Cape Foulweather or Yaquina, her cargo at that point she will go to Tillamook and receive freight for this.

Policy—Up to 12 o'clock last night 17 arrests had been made by the police. Of this number were charged with offences committed against the city, and 9 against the State. Seven are in the jail and 10 are out on bail. Live lively times be calculated on in the Police Court this morning.

Cattle—About twenty head of beef cattle, in excellent condition, were driven into the city yesterday from some point up the valley. These butchers supply the city markets. Epicureans congratulate themselves that the reign of bluefish is over, at least for a brief season.

Robbery—A man named Lee entered complaint yesterday against a Chinaman charging him with having lost one hundred dollars from his pocket Saturday evening. The Celestial was arrested, and there will be examined this morning before Justice Jenny.

Injured—John Conway, the man whose arm was amputated on last Friday evening, is reported as doing very well. Considering the character of the injuries, and the state of the weather, wounded limb is healing quite rapidly.

To Alcatraz—Four soldiers stationed at Vancouver have been sentenced to various terms of confinement in Fort Alcatraz by the late Court martial held at Vancouver. They were taken on the future residence on the last steamer.

Wife Sentenced—Gilfoy, for the killing of Walsh will be sentenced to the Penitentiary this morning by Judge Upton. He was indicted and tried for murder in the first degree but was found guilty of murder in the second degree.

Sunday Meeting—An open air meeting was held yesterday evening at the corner of Stark and First sts at Ladd's bank, at 5 30 o clock, under the auspices of the members of the Young Men's Christian Association.

Postponed—Rev Dr. Schwab desires us to state that the proposed sale of his books by Sabiess & Son, announced last Saturday in the *Oregon Deutsche Zeitung*, will not take place.

Circuit Court.—The Circuit Court which will convene this morning will take up the civil business docket. No criminal cases will be tried until the civil list has been cleared.

Paid Off—Thirty five of the workmen engaged on the custom house and post office building were paid off on Saturday by Postmaster Wakefield.

### BOARD OF DELEGATES

The Board of Delegates of the Portland Fire Department met in the Police Court room Saturday evening.

Minutes read and approved.

The credentials of W H Weed, elected as delegate from No 1, were read and filed in place of Hardenburg, resigned.

The Committee on Certificates reported in favor of granting exempt certificates to R. Hansen, of Company No 4, and A G Gray of the same company.

The same committee reported against the application of W H Rice for an exempt certificate. Laid over for one week.

The Secretary's monthly report was read and referred to Finance Committee.

The following persons, P L Porter, Rufus Norman, John Natho, Morgan A McCue, J Moore and T Chamberlain having been reported as members of Protection Engine Company No 4 were ordered to have certificates granted them.

The application of Jas. Waite, member of Engine Company No 1, for an exempt certificate was referred to regular committee.

The bill of A. G Way, for $6 was ordered paid.

The resignation of Chas W Lamar as a member of the Board of Delegates was accepted.

On motion, Messrs. Holman, Arnold and Reed were appointed a committee to choose a suitable design for a badge to be worn by the Department while on duty. The Chief Engineer was requested to act with the committee.

Messrs Holman, Thomas and Moffett were appointed a committee to report a suitable design and the cost of a lithographic stone thereof for an exempt certificate.

Mr. Weed was appointed on the Committee of Finance to fill a vacancy.

The Board then adjourned.

### AMUSEMENT

The Park—The attendance yesterday at the East Portland Park was quite flattering for the opening of this place of amusement. About 500 ladies and gentlemen were present. The acrobatic and Gymnastic feats by Edwin Montague were very excellent, and won much applause. The feats of Mlle Eugenia Carotta were all first class, and stamp her as an artiste indeed. Dancing was indulged in between the several performances, in which many participated. Quiet was discovered by the East Portland Band. Everything passed off quietly and in good order. A number of swing, spring boards etc. and places for various amusements and games have also been constructed. Altogether it is a very pleasant place to pass a few hours in recreation and innocent pleasure.

This wonderful vegetable restorative is the sheet-anchor of the feeble and debilitated. As a tonic and cordial for the aged and languid it has no equal among stomachics. As a remedy for the nervous weakness to which women are especially subject, it is superseding every other stimulant. In all climates, tropical, temperate or frigid it acts as a specific in every species of disorder which undermines the bodily strength and breaks down the animal spirits.

### A Defense of Pretty Women.

[From the Saturday Review.]

After all is the world so very absurd in its love of pretty women? is woman so very ridiculous in her chase after beauty? A pretty woman is doing a woman's work in the world, but not making speeches, nor making puddings, but making life sunnier and more beautiful. Man has foresworn the pursuit of beauty altogether. Does he seek it for himself, he is guessed to be frivolous, he is guessed to be poetic, there are whispers that his morals are no better than they should be. In society, resolute to be ugly, there is no post for an Adonis, but that of a model or guardsman. But woman does for mankind what man has ceased to do. Her aim from childhood is to be beautiful. Even as a schoolgirl she notes the progress of her charms, the deepening color of her hair, the growing symmetry of her arm, the ripening contour of her cheek. We watch, with silent interest, the mysterious reveries of the maiden: she is dreaming of coming beauty, and panting for the glories of eighteen. Insensibly she becomes an artist, her room is a studio, her glass an academy. The joy of her toilet is the joy of Raphael over his canvas, of Michael Angelo over his marble. She is creating beauty in the silence and the loneliness of her chamber; she grows like any art-creature, the result of patience, of hope, of a thousand delicate touchings and retouchings. Women is never perfect; never complete. A restless night undoes the beauty of the day; sunshine blurs the evanescent coloring of her cheek; frost nips the tender outlines of her face into sudden harshness. Care plows its lines across her brow; motherhood destroys the elastic lightness of her form; the bloom of her cheek, the quick flash of her eye fade and vanish as the years go by. But women is still true to her ideal. She won't know when she is beaten, and she manages to steal fresh victories even in her defeat. She invents new conceptions of womanly grace; she rallies at forty, and fronts us with the beauty of womanhood; she makes a last stand at sixty, with the beauty of age. She falls like Cæsar, wrapping her mantle round her—"buried in woolen! 'twould a saint provoke!" Death listens pitifully to the longings of a lifetime, and the wrinkled face smiles with something of the prettiness of eighteen.

DRESS IN JAPAN.—The style of dress in Japan is even more varied than it is on Chestnut street or Walnut street on a fine Sunday. A Japanese lady, thoroughly arrayed, is really an elaborate work of art. A large amount of attention, and no little expense, to begin with, are devoted to the arrangement of the hair—even the common people regularly employing a hair-dresser. If they cannot afford the luxury every day, they will make it last for two days by sleeping on a wooden pillow placed under the neck.

The item of next importance in a Japanese lady's toilet is her *obi*, or girdle, which is usually of bright colors, and arranged behind with great care, so as to form the camel's hump so popular among our ultra-fashionable belles.

The Grecian bend is an old institution in Japan. To see one of her dark-skinned ladies, with her extensive head-dress, a hump upon her back, and extremely narrow skirt, high, wooden-heeled pattens, her body thrown forward, and as she minces her steps, you would imagine she was caricaturing the brainless votaries of fashion in other lands; but she is only dressing as her people have dressed, and walking as they have walked for centuries. The *obi* serves a purpose in Japan which I have not heard attributed to it elsewhere. When a woman becomes a widow she makes no change in it unless she wishes to announce her purpose never to marry again, in which case she ties her *obi* in front. How effectual this is to ward off all proposals I do not know; but as it is always and everywhere the privilege of a woman to change her mind, it said the *obi* occasionally in such a case works its way around to its normal position behind.—*Prime's "Around the World.*

It is asserted that the Romish Cardinals, in accordance with the secret bull issued by Pius the Ninth in 1870, have already agreed upon the election of his successor, and that Cardinal Patrizzi will be proclaimed Pope as soon as Pius the Ninth has breathed his last. He is known to be the ablest of the reactionary Cardinals at the Vatican; the favorite of the Jesuits and the principal originator of the Œcumenical Council in 1870; and is a personal enemy of King Victor Emanuel. This appointment is made in opposition to the policy of Bismarck, and should the report prove true will bring on a momentous conflict, not only in Europe, but wherever the Roman Church has power.

I see no greater difficulty in believing the resurrection of the dead or the conception of the Virgin than the creation of the world. Is it less easy to reproduce a human body than it was to produce it at first?—*Pascal.*

## FINANCE AND COMMERCE.

SATURDAY EVENING, August 3, 1872.

Gold in New York to-day, 110¼.

Portland Legal Tender rates, 88½@ buying; 91½ selling.

The steamship *John L. Stephens* sailed for San Francisco Saturday morning. She took away a light cargo—about 300 tons—consisting of the following articles: 48 bales of Wool; 43 boxes Eggs; 61 kegs Dried Apples; 21 doz dry and green Fish; 42 bbls Salmon; 200 bbls flour.

The bark *Wilis*, reported in the river with cargo from Honolulu, has not yet got to her berth at this city by Monday morning.

It is conceded on all sides that the prospects for good prices for Wheat are not favorable. Buyers in Washington county are said to be offering 70c per bushel for good White Winter.

The schr *Miss Bond* is receiving cargo of material for the lighthouse now in process of construction at Cape Foulweather, and will have immediate dispatch.

The entire building occupying the middle of the block bounded by Front and First and Ash and Vine streets, has been taken by Messrs. L. White & Co., wholesale dealers in Dry Goods. This firm are now removing their stock to this place. The premises have a frontage on both Front and First streets, and reach through from one street to the other. The building is one of the largest and finest in the city. Messrs. White & Co. have fitted up their new quarters in a style that is unsurpassed. Their removal to more commodious quarters indicates a growth of business and prosperity which is a sure result of business integrity and enterprise.

Exports of specie from New York from January 1st to July 20th amounted to $48,768,067. For the same period last year, $49,833,757. This disproves the idea that the export of specie this year is excessive.

The Boston *Shipping List* of July 20th says that the increased demand for Wool in that market is sustained, and buyers are satisfied that prices are at the lowest point. More activity is also noted in Wool at New York and Philadelphia. The principal inquiry is for medium and low grades.

Fifteen cargoes of Wheat cleared from San Francisco during last month. This is a larger number than for the same month in any previous year. About twenty ships more are engaged to load.

### Domestic Produce.

WHEAT—Telegraphic reports are not more encouraging. Buyers do not think themselves justified in paying more than $1 43 per central here.

FLOUR—There is no demand except for local consumption. Prices unchanged.

OATS—Prices without change. The market inactive. Quotable at about 70@ 75 ₱ bushel.

BUTTER—Choice Dairy is wanted, and would bring 40c. Good to fair solid Butter quotable at 32@35c; good to choice fresh roll at 35@37½ ₱ lb. In San Francisco papers we note renewed shipments of Butter to this coast both by rail from Chicago and by steamer from New York.

BACON—We note no change in prices here. Eastern is still in good supply. Sides quotable at 14½c; Hams, Whittaker's, 17@18c. There is little Oregon in market. In San Francisco general business in meats is quiet, and prices low, with the single exception of A 1 canvas-covered Hams, which are held higher. The stock of Bacon Sides and Dry Salted Meats generally, is comparatively light, and dealers look for an improved trade and better prices before the close of the Summer season.

EGGS—Supply rather better. Quotable at 33@35c ₱ dozen.

## NATIONAL REPUBLICAN PLATFORM

ADOPTED BY THE REPUBLICAN PARTY IN CONVENTION AT PHILADELPHIA, JUNE 6, 1872.

The Republican Party of the United States meets in this National Convention in the centennial year of the Declaration of Independence, and the fifth year of its existence, and submits the following declaration of its faith, and appeals to the country, and to the tribunal of mankind upon the questions before the country:

1. During the eleven years of its supremacy it has increased with grand courage to the solemn duties of the time, has suppressed a gigantic rebellion, emancipated four millions of slaves, decreed the equal citizenship of all, and established universal suffrage. Exhibiting unparalleled magnanimity, it criminally punished no man for political offences and has warmly welcomed all who proved their loyalty by obeying the laws and bearing equally with their neighbors the burdens of the day. It has steadily labored to secure to the States the full measure of authority in the Federal Union, and has guarded, as the apple of its eye, the common school system, which is the palladium of our liberties. Under its administration the Pacific Railroad and similar vast enterprises have been generously aided and successfully conducted to completion; the public lands have been freely given to actual settlers; immigration has been protected and encouraged, and a just and comprehensive treatment of the rights of naturalized citizens secured from foreign powers. In the form of National currency, it has provided for the establishment of a system of circulation and finance which, in the opinion of the most eminent statesmen of other countries, is the best basis for a perfect currency, and which, if kept free from the corrupting influences of partisan legislation, will soon give to the country a currency absolutely good, and equal in value to the world. Its financial management has been so successful that the national debt has been reduced during the present Administration more than one hundred millions of dollars, and the annual interest charge thereon over seven millions of dollars, while the credit of the country has been improved, its resources developed, and its industries promoted to an extent unprecedented in the history of any other nation. Despite the enormous war expenditures, the public faith has been kept inviolate, the pledges of the Government have been redeemed, and the burdens of taxation have been lightened, until the annual taxation is now less than one-fourth of the highest war taxation, and one-third less than the taxation of 1866, while the population, business and wealth of the country have nearly doubled. Under the Administration of the Republican Party, the credit of the Government, formerly impaired and depressed, has been restored to the highest point, and the public debt, created as a burden and a danger, is now recognized as a national blessing, diffused among the people, and a source of national strength. Upon the record thus made up the Republican Party appeals for a renewal of the confidence of the people.

2. Complete liberty and exact equality in the enjoyment of all civil, political and public rights should be established and effectively maintained throughout the United States by efficient and appropriate State and Federal legislation. Neither law nor its administration should admit of any discrimination in respect to citizens by reason of race, creed, color, or previous condition of servitude.

3. The recent amendments to the National Constitution should be cordially sustained because they are right, because they are regarded as settled in good faith and should be carried out, according to their spirit by appropriate legislation, the enforcement of which can be safely trusted only to the party that secured the amendments.

4. The National Government seeks to maintain an honorable peace with all nations, protecting its citizens everywhere, and sympathizing with all peoples who strive for greater liberty.

5. The system of civil service under which the subordinate positions of the Government are considered rewards for mere party zeal, is fatally demoralizing, and we therefore favor a reform of the system, by a law which shall abolish the evils of patronage and make honesty, efficiency and fidelity the essential qualifications for appointments, without practically creating a lifetenure of office.

6. We are opposed to further grants of public lands to corporations and monopolists, and demand that the National domain be set apart for free settlement by the people.

7. The annual revenue, after paying current debts, should furnish a moderate balance for the reduction of the principal of the public debt, and except so much as may be derived from a tax on tobacco and liquors, be raised by duties on importations, which should be adjusted to aid in securing remunerative wages to laborers, and to promote the industries and growth and prosperity of the whole country.

8. We hold in undying honor the soldiers and sailors whose valor saved the Union. Their pensions are a sacred debt of the nation, and the widows and orphans of those who died for the country are entitled to the care of a generous and gratified people. We favor such additional legislation as will extend the bounty and pension laws of the United States to all soldiers and sailors who were honorably discharged, and who in the time of duty became disabled, without regard to length of service or the cause of such discharge.

9. The doctrine of Great Britain and other European powers concerning allegiance, once a subject always a subject, having at last, through the efforts of the United States, been authoritatively abandoned, and the American doctrine of the right of an individual to transfer his allegiance having been accepted by European nations, it is the duty of our Government to guard with jealous care the rights of adopted citizens against the assumption of unauthorized claims by their former Governments, and we urge a continued and careful enforcement and protection to all voluntary emigration.

10. The franking privilege ought to be abolished and a way proposed for reductions in the rates of postage.

11. Among the questions which press for attention is that which concerns the relations of capital and labor; and the Republican party recognizes the duty of shaping legislation so as to secure a full protection and ample field for capital, and for labor which creates capital, the largest opportunities and a just share of the national profits of these two great servants of civilization.

12. We hold that Congress and the President have only to unbind an important duty in their measures for the suppression of violent and treasonable organizations in certain lately rebellious regions and for the protection of the ballot, and therefore they are entitled to the thanks of the Nation.

13. We denounce the repudiation of public debts, in any form or disguise, as a national crime. We pledge with pride the national honor for the payment of that debt, and of the rates of interest upon the balances, and confidently expect that our excellent national currency will be perfected by a speedy resumption to specie payment.

14. The Republican party is mindful of its obligations to the loyal women of America for their noble devotion to the cause of the Union, their application for admission to further usefulness is received with satisfaction, and the honest demands of any class of citizens for additional rights should be treated with respectful consideration.

15. We heartily approve of the action of Congress in granting amnesty to those engaged in the rebellion, and rejoice in the growth of peace and fraternal feeling throughout the land.

16. The Republican party proposes to respect all rights reserved by the people to themselves, as carefully as the powers delegated by them to the State and Territorial governments. It disapproves of asserting constitutional laws for the purpose of removing evils by the interference with rights not surrendered by the people to either the State or National Government.

17. It is the duty of the General Government to adopt such measures as will tend to encourage American commerce and ship-building.

18. We believe that the modest patriotism, the earnest purpose, sound judgment, practical wisdom, the incorruptible integrity and illustrious services of U. S. Grant have commended him to the heart of the American people, and with him at our head we start to-day on a new march to victory.
